Claims 1-8 and 10-25 are still pending in this application. Independent claims 1 and 16 have been amended to make clear that the protocol field in the request for content is scanned to determine if this protocol field identifies a content-related protocol. Support can be found at page 13, fourth paragraph, for example. The Examiner is reminded of the telephone interview of August 1, 2006 in which Applicant's representative pointed out distinguishing features over the *Bector et al.* reference.

Respectfully submitted,
